Professional Summary

Frontend Developer with 2+ years of experience building scalable enterprise applications using Angular, React, and TypeScript. Experienced in developing CRM systems, reusable UI architectures, REST API integrations, and performance-optimized web applications serving 5000+ users.

Experience

PyxisBlu Solutions Pvt Ltd **May 2024 – Present**

Frontend Developer *Ranchi, JH*

- Developed and maintained 5+ enterprise-grade modules for a university CRM platform serving 5000+ users using Angular 18, TypeScript, and REST API integrations.
- Improved frontend performance and scalability through lazy loading, code splitting, optimized API handling, and reusable component architecture, enhancing application responsiveness and reducing load time.
- Built responsive, cross-browser compatible, and performance-optimized user interfaces across desktop, tablet, and mobile devices, ensuring consistent UX and accessibility.
- Developed React-based Hostel and Hotel Management applications featuring role-based workflows, reusable UI architecture, dynamic dashboards, and workflow-driven interfaces for HR, Hostel, and Placement management systems.
- Identified and resolved critical production issues during release cycles through debugging, error handling, and performance optimization, ensuring application stability and reliability.
- Took ownership of sprint task tracking, daily stand-ups, and feature delivery, ensuring timely resolution of blockers and smooth Agile execution.

Dzinex Technology **April 2023 – Sept 2023**

Software Developer Intern *Ranchi, JH*

- Assisted in developing full-stack web applications with responsive frontend and REST API integration.
- Worked with Node.js and Express to fetch and manage application data.
- Debugged issues and optimized performance in collaboration with senior developers.

Projects

Centralized Email Service Platform | *Node.js, Express.js, Redis, SMTP*

- Built a centralized multi-tenant email service platform enabling Super Admins to manage organizations, generate admin credentials, and support scalable partner-based SMTP integrations for external projects.
- Implemented secure email delivery architecture using organization keys, partner codes, role-based access control, and protected storage for sensitive credentials and API keys.

Just Talk (Video Chat Application) | *MERN Stack, ZEGO Cloud*

- Built a real-time video chat app supporting 1:1 and group calls using ZEGO Cloud, with low latency communication and secure authentication.
- Live Demo: https://justtalkin.vercel.app

Personal Portfolio Website with AI Chatbot | *MERN Stack*

- Built a modern developer portfolio to present projects, technical skills, and work experience.
- Integrated an AI-powered chatbot that provides instant responses about portfolio projects and contact information.
- Live Demo: https://sunitaportfolio.vercel.app/

Technical Skills

Frontend: Angular, React, Next.js, TypeScript, JavaScript (ES6+), RxJS, Redux, TanStack Query, Tailwind CSS, PrimeNG, Bootstrap
Backend: Asp.Net, Node.js, Express.js
Databases & Caching: MongoDB, SQL Server, Redis
Testing: Jest
Developer Tools & Libraries: Git, VS Code, Postman, JWT, Cloudinary, Babel, Vite, npm
DevOps/Deployment: Docker, Kubernetes, Vercel, Netlify, GitHub

Education

Chandigarh University,Online **July. 2025 – July 2027**

Master's of Computer Application *Chandigarh*

Ranchi Womens College **Aug. 2021 – May 2024**

Bachelor of Computer Application *Ranchi,Jh*
